

SERVICES

WE BUILD AND REBUILD

We offer you the first-hand expertise of the engineers, technicians and production people who build cranes, qualified to help you solve any problems or explore any options that may exist.

Single source crane maintenance and manufacturing capabilities...
Total in-house control by crane experts who 'know' your equipment and your needs.

Parts

- In-house manufacturing of custom parts to meet any specific non-standard requirements for customers such as Dominion Bridge, Herbert Morris and others
- Strict quality control and on time delivery
- A spare parts service group dedicated to serving your best interests. (1 year warranty on all parts)

Rebuilds

- Turn-key capability from tear down to re-installation
- Complete mechanical and electrical rebuild / replacement parts capability
- State-of-art testing facilities
- In-house Q.A. program

Inspection

- Complete and comprehensive field and in-house inspection
- Custom-tailored preventive maintenance programs
- Annual inspection and maintenance contracts

Modernization

- Restoration of older cranes to peak productivity and performance
- Modification of structural, mechanical or electrical components to equip cranes to new applications, increased production needs and up to date safety standards
- Modernization recommendations, including advising you of the availability of out-of-service cranes from other industries which could be cost-effectively adapted to your needs

Engineering

- Engineering feasibility studies on increasing the capacity of your cranes
- Computerized fatigue and seismic analysis
- Computer Aided Design (CAD) capability
